DETAILED ACTION

This Office Action is in response to the amendment filed 8 June 2006.

Allowable Subject Matter

Claims 13-26 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 13-20 are allowable because prior art does not show alone or in combination along with the limitations of the independent claims such as a vertical body layer of strained silicon disposed on an exposed vertical surface of a SiGe layer within the trench, the exposed vertical surface being recessed transversely from an original trench width and extending upward substantially at original trench width from the top surface of the isolating layer, whereby body layer of silicon is strained.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
